PRODUCT INFORMATION:

The magnetic fire extinguisher holder offers a secure and flexible mounting solution. Equipped with four strong magnets and scratch-resistant plastic surfaces, it enables reliable attachment to metallic surfaces such as steel beams. The combination of robust plastic and metal ensures a long service life. The sturdy metal mounting bracket is quick and easy to install and allows the fire extinguisher to be attached quickly and easily.

Advantages:

- Quick, drill-free installation
- Secure fastening thanks to strong magnets
- Scratch protection thanks to plastic surface
- Robust construction
- Simple handling

Suitable for industrial halls, workshops, garages, warehouses and commercial kitchens - the flexible mounting allows customised positioning.
